Amniff Basket Picnic.

The Browning Reading Club held its annual basket picnic, Thursday, Aug. 23, at Bass Island, the guests, Mrs. H. B. Foster, the steamer left "duty pier" about 10 o'clock with a happy but quiet party on board.

On arrival they were met by Mrs. Foster and Mrs. Lovjoy, who conducted them to Bass Island Club House, where they were soon followed by the freezer of ice cream, which had been the object of much solicitude and some conjecture on the way. Having their minds at rest by the prompt appearance of said cream, there was nothing to mar the enjoyment of the occasion excepting the heat of the day which was borne with fortitude and courage because one member constantly assured them that every breeze was the expected cool wave.

Dinner was served on the veranda and consisted of everything one could wish for. After this important feature was disposed of, the remainder of the day swiftly passed. There were hammocks from which to enjoy the shade of the trees, a row boat at the wharf, and names of various kinds from which none were allowed to "finch."

All too soon the time to leave arrived and in a cooling shower the members went aboard the steamer for the homeward trip, leaving at about 7, and agreeing that it had been a happy day and Mrs. Foster an ideal hostess.

Accidents Galore.
To the Editor of the ADVERTISER:
We think that some word is due to the public in regard to the game played at Biddeford, Saturday, Aug. 25th. The game was played with the Radcliffe team of Norway and not with Oxford, as was advertised by the Biddeford management. The management of the Biddeford team arranged the game with Norway by telephone, and knew that it was not Oxford that would play. The name "Radcliffe" was spelled out by the man at the Norway end of the telephone, in order to avoid any mistakes. The Norway team and management have no desire to travel anywhere and play ball under any other name than the one that belongs to them rightfully. The team, upon its arrival in Biddeford, was surprised to find the game billed as it was, and the members of the team, together with the manager, who accompanied them, informed everybody that inquired, that it was the Norway team that was playing and not Oxford, as advertised. The Biddeford management alone is responsible for the statement that Oxford would play and they made that announcement without the knowledge or sanction of the Norway team.

F. E. Tower, for the Directors of the Norway Baseball Club.
A copy of the above was sent to the Biddeford, Portland and Lewiston papers, which seemed to be all that could be done to set right a matter that was done wholly by the management of the Biddeford ball team, who alone were responsible for the fraud perpetrated on the base ball public.

A Novel Summer Colony.

Through the efforts of the Grand Trunk Railway System in making known the attractions that are to be found in the Algonquin National Park of Ontario, thousands of applications have been received at their several City Ticket Offices throughout the continent for literature and particulars of this, comparatively speaking, new territory and its attractive publications which have been the trunk issue and which have been the greatest factor in bringing tourists to Canada seem to have sounded a new note in travel, holding the attention of the large number of tourists who annually make their peregrinations to the cooler climates. The Algonquin Park territory has been advertised as an ideal spot for the canoeist, angler and camper only and it has been necessary for them to bring complete outfit, provisions, etc., up to the present time no hotel accommodation was available. The discovery, however, for a resort of this kind have been so great that the Grand Trunk with their usual progressive ideas have filled the beach, and are erecting a tent hotel, which in addition to being comfortable will be unique in its entirety. The site of the tented street is a beautiful one situated on a bluff at Park of Kora Temple, A. O. N. M. S. 170 nobles from Palestine Temple, Providence, R. I., being present. I. A. Miss Lowe and another young woman, accompanied by some other women from the boarding houses, went to the river with their bathing suits to bathe. The two young women went beyond their depth. It is reported that Miss Lowe slipped and went forward into a deep pool and neither of the girls being able to swim, it was not possible for the other girl to get her out, although it is said she tried and came near being overcome herself. None of the other women present could save her, but the alarm was instantly given and as soon as possible men came from the house and one procured the body by diving. It is quite a distance across the fields from the house to the stream.

A physician was at once summoned from Bethel, but all efforts to resuscitate her were unavailing, as it appeared that she had been in the water nearly three-quarters of an hour before taken out.

NORTH WATERFORD.

By Rail to Bridgton.

We hear from many sources the probability of a railroad being built in the near future to connect us with the world by the way of Harrison and Bridgton. The evening was rainy but there was a large audience to listen to this well known orator.

The ladies' circle was held, Tuesday afternoon and evening, at the hospitable home of Mr. and Mrs. George B. Rice, and their son, Burnham, and wife. A beautiful supper was spread in the yard and another table was set in the house for those not wishing to sit out doors. Mr. Johansen of the graphophone, All returned to their homes much pleased with the entertainment.

As the time for holding our annual fair draws near, we recall the good order which prevailed last year under the careful management of Sheriff B. G. McIntire and deputies Kilgore and DeCoster. We remember the successful capture and punishment of the parties who came here from another county to sell liquor. The people of this part of Oxford county appreciated the efforts so well carried out and trust that our present sheriff, who is our highly respected townsman, may be reelected by a handsome majority.

Letter to H. J. Bangs.

Norway, Maine.

Dear Sir: If you could get the exclusive sale of a sweetener sugar for five pounds as sweet as a pound of usual sugar, and cost no more—you'd jump at it, wouldn't you?

There wouldn't be 100 lbs. of any other sugar sold in a year in your town; you'd gobble the trade and it wouldn't hurt your whole business.

Devoe is like that among paints; it is twice as sweet as some; it is sweeter than any; not one exception; one gallon is two, or one-and-a-half or one-and-three-quarters.

Better than that; paint has to be painted; that costs \$2 to \$4 a gallon. A gallon saved is \$2 to \$4 saved in labor, besides the paint.

Even that isn't all. A gallon Devoe put on wears as long as two gallons put on at a cost of \$2 to \$4 a gallon. Two gallons more put on at \$2 to \$4 a gallon. Count all that. The paint that wears double costs less by 3 gallons of paint and 3 gallons of painting; that's about \$15 a gallon for those superfluous gallons.

That's as good as a double-sweet sugar, isn't it?

Yours truly,
F. W. Devoe & Co.,
New York.

Howard Family Genealogy.

The following history of the Howard family, leading people of Oxford county in the early days and patriots in the struggle of our country, will be of much interest and value to our readers.

In the records of Woburn, Mass., are the following statements. Children of James and Bathsheba Howard:

Bathsheba, born April 28, 1711, died Oct. 8, 1779.

James, born April 16, 1712, died May 4, 1712.

Hulda, born April 18, 1714.

Abigail, born July 23, 1716.

Ja mes, born Aug. 24, 1718.

Sarah, born March 15, 1722.

Thomas, March 22, 1724.

Mary, June 6, 1728.

Children of James and Susanna Howard:

Susanna, born Oct. 7, 1742.

James, born Nov. 7, 1744.

Samuel, born May 2, 1747.

Sarah, born April 15, 1750.

Lemuel, born April 6, 1752.

Benjamin, born July 6, 1754, died Feb. 1755.

John, born Feb. 15, 1756.

Joseph, born Nov. 9, 1758.

Of the last mentioned family the son, Joseph, was the father of Judge Howard of Portland, and was the first postmaster in Brownfield.

Lemuel married Hannah Clemons, daughter of John and Abigail Clemons, who were married in Fryeburg, June 4, 1779, by Rev. Wm. Fessenden. They moved to Hiram in 1781. They were the fifth family to settle in Hiram.

Their daughter, Hannah, who married William Cotton, died in Hiram, aged ninety-one years, eleven months and three days. At the time of her death she was the oldest woman in Hiram.

Samuel Howard, one of the principal subjects of this sketch, married Mary Haley of Boston. She died in Brownfield, August 2, 1823, at the age of 77 years, and was buried on a high bank on the shore of the lake.

At the commencement of the hostilities in 1775, Samuel Howard resided in Boston, to parties now living he stated that he was a participant in the "Boston Tea Party," and related the details of that memorable event. He with a man named Merrill, were engaged in cabinet making, and one evening when returning from their labor, they were attacked by a redcoat, whom they promptly threw into the harbor, but this proceeding alarmed Samuel, when he had leisure to consider it, so that night he took his family and effects in a row and landed in Chelsea, there ox teams met them and conveyed them to Woburn, near his father's house.

Samuel Howard enlisted in the Revolutionary war in 1776, was fourteen months in service with Col. Henry Knox and Capt. Edward Burbank and was engaged in the battles of Trenton and Princeton, which facts are recorded in the Department of the Interior at Washington, D. C.

During the time he was at war, his father moved to Brownfield, his mother was the first woman to settle in Brownfield, and on that account General Brown gave her one hundred and sixty acres of land at the return of Samuel Howard, who with his wife and children, the following children were born to them:

James, born 1772, married Hannah Farrington, died 1854.

Dorothy, born 1770.

Loretta, born 1775, married Wm. Poor, died 1854.

Joseph married Helen Fly.

Thomas married Fox.

Susan married Jerry Storer.

After the death of his wife, Samuel Howard resided with his son, James, in Brownfield, and afterward in Conway Center, N. H., where he died, June 1, 1840.

Hannah Farrington, the wife of Samuel Howard's son, James, was the daughter of Jeremiah, who married Rachel Horne of Rochester, N. H., Dr. James Farrington born Oct. 1791, at Conway, N. H., Elijah, who married Miss Dolly, and Dolly, who married Abner Doloff.

The children of James Howard and Hannah Farrington were:

Samuel, war of 1812, died 18 years old.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so slow that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have experienced any of these indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success you have had with your medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation."

"Soon after I read one of your advertisements I decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and was told that I had a tumor and would have to undergo an operation."

"I have been examined by a physician and was told that I had a tumor and would have to undergo an operation."

Rheumatism Cannot Be Cured Unless Uric-O is Used

The Noyes Drug Store is the Home of Uric-O in Norway.

The Rheumatic person is skeptical regarding the claims of almost any remedy advertised as a cure for Rheumatism and one can scarcely blame him for being so. All the cures and liniments combined never actually cured a case of Rheumatism. They may relieve it one quarter, but it is sure to break out somewhere else. The only true way to cure Rheumatism is to drive it from the system, for as long as the Uric and Rheumatic Acid remains in the blood, it is never entirely free from the trouble. This is where the value of Uric-O as a permanent cure for Rheumatism comes in. It seeks out the Rheumatic poison in the blood, muscles and kidneys, renders it inert and harmless and drives it out of the system. That is why Uric-O is such an admirable and effective cure for Rheumatism.

The chief reason that Uric-O is such a wonderful cure for Rheumatism is that it is designed and prepared to cure Rheumatism and Rheumatism only. It does not contain any alcohol or other so-called "drugs" which are "poison" to the system, but it is composed of antiseptics for the Rheumatic poison in the system. That is the secret of its wonderful success. Rheumatism simply cannot exist in a person's system if Uric-O is used.

O is sold by Noyes' Drug Store, "The Home of Uric-O" in Norway, at 75c and \$1.00 the bottle, but if you feel skeptical about its efficacy you can test it free of charge. Write together with your name and address to the Smith Drug Co., X. Y., and they will send you a sample bottle free. Do not send your name to any other source. Uric-O, want to test it thoroughly, and will agree to take it systematically according to directions, they frequently send a regular 75c bottle free.

She Can Help Him This Way.

No woman can make good for her husband's deficiencies. The best wife in the world can't make a man pan out gold if he is all tin.

Her influence over him may be mighty strong, but it's of a kind of accelerating quality. That is to say, if he is on the downward track she can bustle him along faster than a toboggan; or if he is on the upward grade she can give him a powerful boost. But if he is running down hill, with no capacity for running up, it will take cherubim and seraphim to switch him over on the other grade and keep him going. A mere woman can't do it.

There are things, though, that the wife of a man of average ability can do for him which will make her price above rubies and go a long way toward accomplishing his success in life.

One of these things is to keep alive his faith in himself. There comes a time in every man's career when his fate rests in his wife's hands. It is when the battle goes against him and he is tempted to give up in despair. Then if his wife reminds him that luck always has been against him, that the world is leagued together to defeat him, that she told him he would fail, and she knows he never can succeed, that man's doom is sealed. On the other hand, if she flutters ahead like a flag of glory, always beckoning him on, telling him she knows he can overcome all obstacles, steadily showing her faith in him and refusing to give it up, she will inspire him with the courage and dogged determination which will eventually win success. She may be to him a light gone out, leaving him to stumble in darkness, or a bright star of hope, shining steadfastly on.

Another way in which she can help him is by taking an interest in his business. Whether he sells salt herring or writes sonnets, she ought to make him feel it a pleasure to talk to her about what he has been doing. She may know little about his occupation, but if she is sensibly interested, her intuition will be flashes of genius by which any man might profit. A man's business is closer to his heart than anything else, and it's a foolish woman, indeed, who does not see the benefits both may derive from comradeship on that score.

Then, a woman may be of invaluable assistance to her husband by making friends for him, or she can do him incalculable harm by making enemies. She can soothe him up to her apron strings, or she can urge him out among people who can help him.

Above all other ways, she can prosper his career by keeping home comfortable for him. It is strange how many women fail to realize that a home is the power-house in which the wage earners of the family should gather dynamic energy to fight and win the battle of life. Every fireside ought to be a haven of peace, where jaded nerves, frayed and frazzled by contact with the world, may be soothed and restored. For the woman who is happily married this handling out of home nerve tonic is the biggest kind of a career. If she chooses to exhaust her husband's strength on foolish household tasks, she is his worst enemy. If she otherwise gives him a bit-of-misery home life, she is deliberately pulling him down into obscurity.

If she builds him up with proper food, sends him out cheered and rested and restored, with faith in himself and in her, she is pushing him straight on to success.

Why Adulterated Paint is Dear

A maker of adulterated white lead sneered "Why should paint be pure? No one eats it."

True, but when white lead is adulterated with barytes, sublimed lead, gypsum, whiting, etc., it loses the qualities which make pure white lead the best paint pigment.

And when these imitations are sold as white lead, the consumer is deceived into paying white lead prices for worthless substitutes.

Red Seal Pure White Lead

Made by the Old Dutch Process

contains no adulteration whatever, and when mixed with Pure Linseed Oil lasts as no paint made of cheap imitations can.

Grangers' Annual Picnic.

About one hundred people, members
of Frederick Robie Grange, with their
friends, gathered in the beautiful grove
near Saturday Pond, Aug. 18, to enjoy

up and loaded with good things which
were characteristic of Patrons of Hus-
bandry. The committee of which Mr. D.
and Mrs. Gammon (worthy patrons) were
the chairman, had prepared a program
for the afternoon, as well as ice cream,
lemonade and peanuts, of which all were
well satisfied. Boats were provided for
the waters of boating, and hammocks
hung, so those who needed rest after
dinner could obtain it. The most ex-
citing part of the program was a ball
game between the married men and the

LOCKE'S MILLS.

A Lively Ball Game.

The Dudley Cottage base ball team de-
feated the Locke's Mills team at Walker's
Mills last Saturday afternoon, by a score
of 12 to 5.

The Cottage team went to the grounds
in the hayrack and took with it the
guests of the house as rosters, with
balls and horns, Jack Welsh playing se-
lections on the cornet.

The game was fast and interesting.
Thayer of the J. P. Squire team pitched,
and Jack Fuller of the Transportation
team of Boston, caught for the Cottage
nine. The local team could not touch
Thayer for five innings, during which
time the Dudley team scored six runs.
The features of the game were the throw
of McComb of the Cottage team, from
deep center to the home plate, retiring a
runner, and the hitting of Christie.
Herb Day played for the Cottage team
and cracked out a pretty single and stole
second and scored a run.

The battery work of the Locke's Mills
team is worthy of note, but they were
poorly supported. What looked like a
rally in the ninth inning for the locals,
was cut off by Bigney of the Cottage
team, catching a line drive and throw-
ing to catcher, who played first admir-
ably, completing a pretty double play.
Johnson at third, could not see the ball
at times. Umpire Bennett was forced
into position, but escaped unhurt.

Edith Karober as score keeper worried
the locals, they could not give her any
points. The two-balls, which were very
refreshing after the long continued and
intense heat. Crops last renewed their
vigor and color and are now looking well.
